

Danish Scouting Labels

Examples from Nykøbing Falster and other places

Objective: To provide examples of complete sheets of the annual issues from one area and examples of material from other localities in Denmark.

Plan: To display the material in chronological order dealing first with the sheets for Nykøbing and then with other issues as individual labels.

Introduction:

Scouting in Denmark is a vibrant movement with nearly 70,000 members across five main associations collaborating under the umbrella organization "Spejderne" (The Guides and Scouts of Denmark). The movement focuses on nature, outdoor life, and community

The five main associations are:

DDS = Det Danske Spejderkorps = Danish Scout Association (blue uniforms, mixed)

KFUM = YMCA Spejderne (mixed),

De grønne pigespejdere (Green Girl Guides),

DBS = Dansk Baptist Spejderkorps (Baptist), and

FDF (interdenominational).

Most individual groups are self-governing and emphasize "learning by doing", teamwork, community and nature conservation.

Locations of places for which labels are shown.

Each sheet bears a unique number but few sheets survive intact.

Basic facts about the sheets

All of the whole sheets have been produced to benefit Scouting/ Guiding on a pair of islands (Lolland at left and Falster at right) shown on the map. The Scout/ Guide HQ is in the main town (Nykøbing) on Falster island. The sheets are composed of different numbers of stamps depending on the design. For example there may be six or eight rows with each normally having 5 labels in each row. Every sheet has a number and a "header" usually featuring some local building located somewhere on either of the islands but mostly in the town of Nykøbing - Falster. (This is to distinguish the town from several others called Nykøbing elsewhere in Denmark. The sheets for 1983 and 1984 have a background of a map of the two islands. Most of the items shown on the 1983 map are not shown in the correct location as most of them are in the town of Nykøbing. For example, the statue of bear shown towards the southern tip of Falster island is actually located near the centre of Nykøbing. A photo of the statue is shown below. From 1989 onwards the title strip uses the word "besøger" which means visit so the labels are also advertising tourist attractions.

Following on from the whole sheets are sets of stamps for individual towns or Groups. The final page gives a representative label from each of the other towns for which there are labels in my collection. In the round, the display gives a fair idea of the variety of labels available and shows that they go through the same production processes as postage stamps. The labels are on different paper types, have been perforated by different means and show a variety of different types of printing

The order of the sheets is as follows:

Introduction	1 - 2.
Nykøbing Falster issues in sheets	3 - 24
Issues for different Associations	25 - 30
Issues for different towns	31 - 32

The sheet of labels at the end of the Nykøbing Falster issues is from the town of Kolding on the Danish mainland. It has been included to make up a board of 8 full sheets of labels. The Danish text at the bottom of the sheet indicates that many other charities benefitted from the sale of the labels. The other Nykøbing Falster sheets (missing years) are in horizontal format so do not suit the display. The image below is from the town.

KOLDING JUL 1985

KOLDING JULEMÆRKE 1985

Udgivet af Selskabet til udgivelse af KOLDING JULEMÆRKE, 6000 Kolding, i samarbejde med Sct. Georgs Gilderne, Lions Club, Bramdrupdam og Koldinghus Y's Mens Club.

Tegnet af Peter Nicolai Møller og farvelagt af Gert Eilenberger. Tilrettelagt af Ruth & Lasse Svendsen.

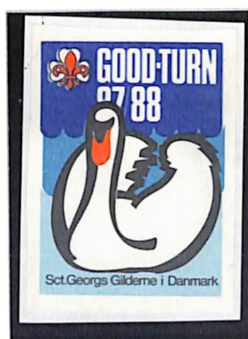

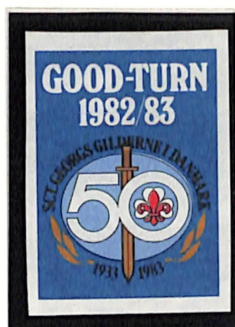

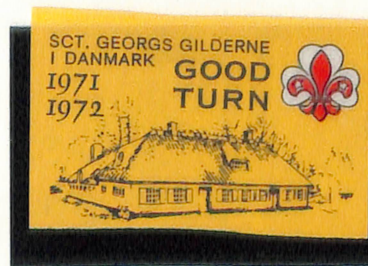

Repro: H.L-Repro, Hedensted. Tryk: bjørn e. reklame, Kolding.

Papir: H. Christensen & Søn, Odense. Motiv: Nissemusik.

Årets Kolding-julemærke vil mange nikke genkende til. Kunstneren bag det, Peter Nicolai Møller levede fra 1838 til 1910 og var en af Koldings store kunstmålere. Han blev kendt over hele verden for sine nissefigurer, der alle har individuelle særpræg. Peter N. Møller var hele livet døvstum og derfor brugte han sine øvrige sanser så meget desto mere. Mange af de små detaljer og udtryk, han fandt hos sine medmennesker, overførte han til nisseverdenen. Det er tegneren Gert Eilenberger, Kolding, der har bearbejdet og farvelagt de gamle originaler.

St George's Guild

St George's Guild is an organisation that supports Scouting and Guiding in Denmark and was formed in 1933. It's members are frequently former members or leaders in the Movement who no longer have an active involvement in training youngsters but wish to continue serving the community and help raise funds for the Movement and other charities both locally and internationally. Members are required to accept the Scout principles. St George is the patron saint of Scouting.

All for towns south and west of Viborg

Marslet YMCA Scouts

Marslet is a town about 10 Km south and west of Aarhus on the Danish Mainland. It has a population of over 5000 and is in effect a commuter town for those working in Aarhus. As usual, the labels are a mix of Christmas designs and local scenes- especially the local churches.

Christmas labels for Svogerslev KFUM Scouts

Arranged in chronological order. This time they bear the KFUM badge

Svogerslev is a small satellite town located four kilometres west of Roskilde, Denmark. The original village features a village pond, a Romanesque church (one of the smallest in Denmark) and a number of old farm buildings. The historic centre is surrounded by large developments of single family detached homes. The population is about 4300.

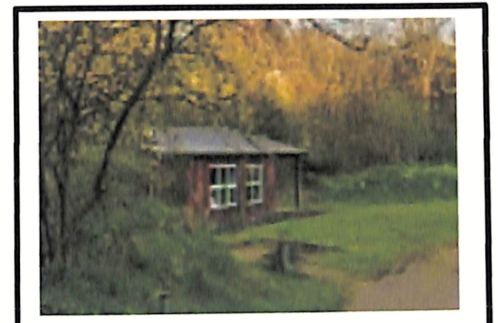

Christmas labels for Varde DDS Scouts

DDS HQ

KFUM HQ

Varde is town of about 14,000 in the south west of the Jutland peninsula. It is the fifth largest municipality in Denmark. There are Scout Groups belonging to KFUM, DDS and BDS in the town. In the DDS the oldest age range (16- 23 yrs) is called "Clan" and the youngest (0- 6 yrs) is called the "Family" section.

The large labels form part of the sheet header

DDS

KFUM and DDS Scout Groups tend to have their respective badges on the labels. In other cases it has proved difficult to identify the Scout Association involved. The variety of paper, perforation and printing methods used suggests local rather than a central production source.
